Dear OLP Parents and Students:

Welcome to the Curriculum Guide for the 2022-2023 school year at the Academy of Our Lady of Peace. This guide was created to support our mission and meet the diverse needs of our students as they face the challenges of our rapidly changing world. With the help of our wonderful teaching faculty, we continue to offer in-depth course options within a dynamic classroom environment to foster curiosity, innovative thinking, collaborative learning, and problem solving. We seek to cultivate a growth mindset and teach students the value of leading healthy, balanced and fulfilled lives. Our goal is to provide all students with both the academic and social emotional skills necessary for success at the collegiate level and in their future careers.

In keeping with our mission, and as part of our vision to prepare and nurture the whole child, we are pleased to offer a wide range of courses to support the multitude of interests of our young women. In order to meet the varied interests, extracurricular preferences, and needs of our students, we will continue providing the option for students to take G block, Zero period and/or Online courses through the Pilot Academy. We understand that pursuing one's passions is essential to developing and nurturing the life-long learner that resides in every girl who steps foot on our campus. Thus, we are continually evaluating our curriculum to ensure that our courses tap into the passions of our diverse and thriving student body. Furthermore, many universities and colleges are offering online courses to increase student access and provide more options for their students. In offering online courses at the high school level, we hope to promote the benefits of a self-motivated, independent learner, while expanding access and options to our own students.

Our curriculum, rooted in the traditions of the Sisters of St. Joseph of Carondelet, is centered on educating our girls to become women of heart, women of faith, women of courage, and women of excellence who will become positive forces within their community, church, and nation. Furthermore, education research indicates that students who are able to spend some time pursuing their passions are more intrinsically motivated and more successful in their academics overall. We want students to be inspired and challenged to grow, while we support them in their learning adventure.

We invite you to partner with us by carefully and thoughtfully reviewing this material so that you may make selections that promise a successful year ahead. All of our course options are available for review on the school's website under the "Academics" tab. The remaining pages of this guide will highlight our school's graduation and service learning requirements, curricular options for G block, Zero block, and online courses, and academic advising services. We strongly encourage students to select courses that not only fulfill requirements but also match their passions.

Students will have opportunities to learn about the course request process through a presentation by their class counselors at their class meeting on Tuesday, January 25th, 2022. All students will have individual meetings with a counselor beginning in late January. Parents are invited to join us for Course Advisement Night on Thursday, January 27th, 2022 at 6 pm to learn more about the OLP Curriculum and meet with individual department chairs. Parents are always welcome to contact their daughter's counselor, if they wish to discuss academic planning in greater detail.

Sincerely,

Sara Osmus

Assistant Principal of Curriculum and Instruction

Mission Statement

Founded and rooted in the Gospel values of the Catholic church and the charism of the Sisters of St. Joseph of Carondelet, the Academy of Our Lady of Peace empowers young women in an innovative learning environment that honors the individual while fostering community, and develops faith-filled leaders dedicated to the "love of God and the dear neighbor without distinction."

Integral Student Outcomes (ISOs)

A woman of faith who...

- maintains a relationship with "God and the dear neighbor without distinction"
- understands and values Catholic teachings
- applies Gospel values through her actions and choices
- encourages and serves as a model to others in fostering the mission of Jesus in our world

A woman of heart who...

- actively works to foster solidarity, unity, and sisterhood in a spirit of joy
- recognizes and values the diversity of society
- acts as a responsible member of the global community to promote justice and peace
- strives for unity and reconciliation through compassion for others

A woman of courage who...

- takes initiative in response to challenges
- advocates for social justice embodying Catholic Social Teaching
- perseveres through challenges and adversity
- chooses integrity regardless of personal consequences

A woman of excellence who...

- seeks collaboratively to solve problems through critical thinking and creative solutions
- seeks opportunities to be challenged and takes risks in the active pursuit of learning
- communicates ideas and perspectives effectively and articulately through appropriate mediums
- adapts to emerging technology responsibly

Course Registration Policies and Timeline

It is important that both students and parents carefully read the course descriptions and prerequisites. As a reminder, these are located on the OLP website (www.aolp.org) under the "Academics" tab. Students should discuss course choices with both their parents and counselor. Many courses have written prerequisites and students are expected to evaluate their eligibility for courses based on those requirements. Students will be required to take the courses for which they pre-register unless the student does not meet published prerequisites, the class is canceled, or an irresolvable conflict in scheduling exists.

Students will participate in a workshop with their counselor to learn about the new course options on January 25, 2022 via zoom and also in-person. Following this workshop, students will be provided with the **Schedule Request Form** and will be asked to indicate their 1st, 2nd, and 3rd choice course preferences. This form must be completed and reviewed by a parent to finalize the course request preferences. Students will have from January 28th - February 4th to submit their course registration requests via Blackbaud. Students should refer to the course descriptions, available on our website, in order to make their selections. **The registration window will open on January 28th - February 4th.** Beginning on February 7, 2022 students will then meet individually with their counselor throughout the month to affirm and/or revise their course preferences.

Schedule Change Policies

Developing a class schedule for a student incorporates the student's wishes, as indicated on her schedule request form, and the ability of the school to meet those requests and those of other students. If an irresolvable schedule conflict exists, courses may be substituted without student notification. **Therefore, it is required that second and third alternate choices be selected with the same care as your first choices.**

If a student did not receive a first choice or alternate selection, or if there was an administrative error, a request for a schedule change may be submitted to the counselor without cost. **Schedule changes for other reasons will be charged a \$20 schedule fee and processed through the students FACTS account. Schedule changes will not be granted for teacher preference.**

Students will receive their schedules in May and will have an opportunity to request a meeting with their counselor to process a schedule change, if desired. **All requests for changes must be finalized by the first three calendar days of instruction of each semester.** Any student who requests dropping a course after the first three days of instruction and until the end of the first quarter will receive a "W" (withdrawal) on her transcript. Students are not eligible to withdraw from a course after the quarter.

Similarly, students may wish to change their second semester course selections. The window for changing second semester schedules opens the first week of December and the same policies apply. Students will be charged a \$20 schedule change fee and they must finalize the request by the first three calendar days of instruction. Changes made after this timeframe until the third quarter will also result in a "W" (withdrawal) on her transcript. Students are not eligible to withdraw from a course after the third quarter.

Students are provided with many opportunities to plan their schedules carefully. Therefore, students are expected to make a commitment to each course for its duration. Changing one course in a student's schedule most likely requires a change to the entire schedule.

Graduation Requirements

To graduate from the Academy of Our Lady of Peace, a student must be enrolled on campus in a minimum of 6 courses each of the 8 semesters and complete a four-year program of studies earning a minimum of 240 units (1 semester = 5 units).

Theology	40 units	Visual & Performing Arts	10 units
English	40 units	World Languages	20 units
Mathematics	30 units	Speech & Debate	5 units
Science	20 units	Health and Fitness	20 units *
Social Studies	30 units	Electives	25 units

Athletic/Independent PE Waiver: Some students may qualify to receive physical education credit outside of the OLP Health & Fitness course offerings. Please refer to the requirements listed in the Independent PE course description.

Academic Refreshment or Renewal Policy

It is the expectation that all students will satisfactorily pass every course with a grade of C or higher. In the instance where a student earns an F grade, the course must be repeated. Specifically, students earning D or F grades in a UC/CSU A-G courses must repeat or validate the course prior to senior year to maintain college eligibility. Similarly, any student earning an F grade must also repeat the course to maintain eligibility for high school graduation. Students who earn a semester D or F grade are encouraged to repeat such classes during the summer immediately following the school year in which the failure occurred. **It is critical that students choose UC approved courses when repeating classes.** There will be an indication of a student’s refreshed coursework and grade on her transcript. If you need assistance finding a course off-site, your daughter’s counselors are able to assist you. Please review the Student Handbook section on Academic Policies for updated policies and procedures.

Honors and Advanced Placement Courses

All courses at OLP are college preparatory in nature and, therefore, prepare students for the rigor of higher education. Some courses, however, are provided to allow students with a passion in particular disciplines to proceed at an accelerated pace and to actively participate in courses involving higher level thinking skills. OLP offers a wide variety of both Honors and Advanced Placement courses. Honors and Advanced Placement courses do carry an added 1.0 grade point as reflected on the student’s OLP academic transcript. Please note that American Literature Honors carries an added .5 grade point.

The Advanced Placement Program at OLP offers a college/university level curriculum for high school students, coordinated by the College Board. An AP course at OLP will assess students by college/university level standards. It is expected that college/university level projects and activities that span a wide range of intellectual tasks will be assigned to the students.

The Advanced Placement Program is established at the national level and administers national proficiency tests at the end of the second semester in May. Students enrolling in AP classes study a college-level curriculum using prescribed college texts, and have the option to take the AP exam at the close of the course. Students are strongly encouraged to take the AP Exam in May. Please note that the AP exam does have an additional test fee not included in tuition.

Students and parents are encouraged to discuss co-curricular activities, outside-of-school work responsibilities, and additional in-school activities that will also require the student’s time. The learning expectations of AP students at OLP will be reviewed at the annual Course Advisement Night.

Note: To promote balance and health, students are counseled to limit their enrollment to three advanced (AP/Honor/Advanced) courses per semester.

ONLINE COURSE INFORMATION:

OLP offers a limited number of online courses designed to allow students to strengthen their academic preparation for college. The Pilot Online Academy courses mirror the same high quality academic structures and use the same curriculum as their traditional classroom counterparts, but offer a convenient and flexible format.

These classes can be used to satisfy OLP academic graduation requirements and college entrance requirements while adding flexibility to the student’s schedule and providing a supportive online experience. **Please be aware that the rigor of an online course will match that of an OLP on-campus course.** Students who are signing up to take online courses will be held to the policies and standards as relayed in the OLP Student/Parent Handbook.

Online students must be self-starters. Participating in online coursework requires maturity and motivation to work independently. Online courses require students to use their time wisely, be organized, be self-directed, and be willing to try new modes of communication and learning. Although online learning is commonly used in high schools, colleges, and work environments, it is challenging and requires certain individual characteristics in order to experience success. **A Parental Consent Form is required prior to enrolling in the course because students will be held to the same withdraw (W) policy as the traditional in-classroom course offerings.** Online course work is recorded as part of a student’s transcript.

ZERO BLOCK INFORMATION:

As students and parents begin preliminary course selection planning, it is important to consider a “zero block”. The primary purpose of zero block is to offer students greater access to broader course selections. More specifically, zero block frees up space in a student’s schedule by giving her an additional period in her academic rotation in order to take more electives in a subject of interest or to move more quickly into advanced courses. Zero block meets from 6:45 am – 7:35 am (Mon. – Thurs.) and therefore necessitates a firm commitment on the part of participating students.

G BLOCK INFORMATION:

During G Block, students can choose to take an academic course. Those who don’t select an academic course will be placed in a quiet study hall. The study hall class is designed to give students a place to work in a quiet atmosphere during the school day. Students are required to come to the study hall with work to be completed. Study Hall is a non credit bearing course; no letter grade or credit will be given.

G Block		Zero Block	Online Courses
<i>Computer Science/STEM</i> AP Computer Science Principles Robotics <i>English</i> Speech & Debate I Speech & Debate II Honors Women’s Literature Seminar <i>Interdisciplinary</i> Leadership <i>Physical Education</i> Health <i>Theology</i> Christian Morality Comparative Cultures Scripture: Old Testament	<i>Religion, Continued</i> Social Justice <i>Social Studies</i> Economics Government <i>Visual & Performing Arts</i> Art 1 & 2 Art Digital Photography 1 & 2 Drama 1 & 2 Introduction to Dance Video Production III & IV <i>World Languages</i> Spanish II <i>Study Hall</i>	Video Productions I & II	<i>Social Studies</i> Economics US Governments <i>Health & Fitness</i> Health

OLP Internship:

A small group of students could have the opportunity to participate in an internship while attending OLP, depending on internship availability. Past internship experiences have included a construction internship with a general contracting firm specializing in commercial construction. At that time, up to three students each block were accepted for this opportunity. This would be a semester commitment and will garner 5 units of pass/fail credit. OLP Internship credit can not be used to meet graduation requirements. Students indicating OLP Internship as an interest on their course registration sheet should also fill out this [Google form](#).

Pass/Fail Course Credit:

Participation in certain extracurricular programs can qualify a student to earn up to 2.5 units of pass/fail credit per semester. This credit cannot be used to meet graduation requirements. A detailed list of criteria for earning this credit will be provided by the program moderator.

Qualifying Program	Program Moderator	Moderator Contact
Mock Trial	Ms. Shawn Hanley	shanley@aolp.org
Robotics	Mr. Jim Cooney	jcooney@aolp.org
Spring Sing	Ms. Kelly Culver	kculver@aolp.org
Theater Productions	Mr. Justin Tracy	jtracy@aolp.org

Course Fee Information

Students can enroll in up to 7 courses **per semester** with no additional fees. Students who choose to enroll in an 8th course will be charged a \$450 fee per semester. **Additionally, any student who requests dropping an 8th course after March 19, 2022 will still be charged a \$450 fee per semester course in the 2022-2023 billing cycle (no refunds will be issued).** We staff these courses according to enrollment prior to April 1, 2022.

Christian Service Philosophy

Serving our Dear Neighbor is the heart of the CSJ mission and, therefore, also the heart of OLP's mission. We are called to be loving disciples, serving our neighbors with kindness and compassion. As a member of the OLP community, each student is encouraged to engage in Christian service, striving to bring about justice and love in our community, as Jesus modeled for us.

Service at OLP is grounded in the understanding that every person is created with innate worth and dignity. Through our service opportunities, students at OLP live the CSJ call to be women of heart, women of faith, and women of courage. OLP offers a wide variety of local service opportunities through OLP Clubs and Campus Ministry, mixed with annual educational justice immersions focusing on a wide range of social justice issues, both domestic and international.

We do not require mandatory service hours as part of OLP graduation requirements. This philosophy encourages and celebrates the thriving culture of service that has flourished at OLP. We firmly believe that students are motivated to serve others through an authentic spirit of compassion and a desire to engage with our dear neighbors, both locally and globally.

BYOD Specifications

OLP strives to develop mastery of 21st-century skills in each student to ensure that she becomes an engaged agent of change in our global society. Technology plays a critical role in the way we collaborate and communicate in that same world. With respect to OLP's mission and the economic diversity of our families, OLP is not mandating the specific device each student uses, but rather, has adopted a "Bring Your Own Device" (BYOD) policy that outlines minimum specifications for whatever device a family chooses. This policy and practice will guide the use of interactive instruction and learning that will connect our students more meaningfully to the world outside. For more information about our BYOD policy, please visit the [STEM section of our school's website](#).

Ebooks/Textbooks

The school prioritizes offering an ebook option whenever possible in order to ease the burden of costs for textbooks, shipping issues, and stock issues. Most rental dates for e-books are six months or one year. Please be cognizant of rental

periods before purchasing an ebook rental. The finalized book list will be published on the school's website in June under the Academics tab. OLP is not liable for refunds on ebook purchases that are rented prior to the time period allotted for the course.

Students may have the option to buy a paper textbook through any vendor. We suggest you use the vendor that offers the best deal in the best interest of your family. For further questions, contact the School Librarian.

NOTES:

2022-2023 Course Registration Process and Forms

Course Registration Process

Registration is a multi-step process. Students will first attend a workshop hosted by a counselor to learn about updates in the 2022-2023 course options. Following this workshop, students will receive their corresponding Course Selection Form on Friday, January 28th in D Block. Parents will also have an opportunity to learn about the updated curriculum options through a Course Advisement virtual presentation evening on January 27th, 2022 at 6:00 pm.

Following these meetings, students and parents are asked to carefully review the curriculum options and to record the student's first and alternate choice courses on the Course Selection Form. This document will need to be signed by a parent and will be given to the student's counselor. Students will need to complete the course registration process through Blackbaud between January 28th - February 4th 2022.

When choosing courses, please review the 4-year plan, transcript and course descriptions at www.aolp.org, paying careful attention to the stated prerequisites. Students will be required to take the courses for which they pre-register unless the student does not meet published prerequisites, the class is canceled, or an irresolvable conflict in scheduling exists. ***Students who do not choose courses during the specified time will have their courses selected by their counselor.***

Course Registration Forms:

Rising Seniors (Class of 2023) [Course Registration Form](#)

Rising Juniors (Class of 2024) [Course Registration Form](#)

Rising Sophomores (Class of 2025) [Course Registration Form](#)

Time Management - Semester Schedule

Before choosing your classes for next year, we want you to think holistically about what you can manage by creating a healthy balance for yourself.

Step 1: Visit [OLP's Course Profiles](#) to review and list the courses you are interested in and the expected homework times for all of your classes based on the information provided in the course description.

Class	Estimated homework:
1.	
2.	
3.	
4.	
5.	
6.	
Optional G-Block class	
Optional Zero-block	
Optional Online course	
	Total hours:
Divide by 2 to get an estimated average daily homework. <i>Remember, with the block schedule, there is no way to guarantee that your heavier classes don't end up on the same day!</i>	Estimated daily homework:

Step 2: Create a calendar for your time including: service hours, exercise, tutoring (if needed), church activities (ie. Mass /confirmation class, etc.), work, extracurriculars such as sports, dance, drama, Spring Sing, etc., activities of daily living: eating, transportation time, chores, AND homework.
